WORK EXPERIENCE

Ola Data Analyst
September 2023- March 2025
I analyse large datasets to identify trends, patterns, and insights.
I use statistical methods and analytical tools to interpret complex data sets.
I create compelling visualizations (charts, graphs, dashboards) using tools like Tableau, Power BI, and Excel.
I present data insights to stakeholders through detailed reports and visual presentations.
I manipulate, and analyze data from relational databases.
I work closely with business teams (marketing, finance, operations) to understand their data needs and provide insights.
I ensure that the data used for analysis is accurate, reliable, and meets business standards.
I perform data reconciliation between different systems to ensure consistency.
I utilize tools such as Excel, Python, R, SQL, and SAS for data manipulation and analysis.
I suggest process improvements based on data analysis to enhance operational performance.
I translate data findings into actionable business recommendations.
